

Rhenoplast Window Active Plus

Care lotion for coated exterior PVC window profiles

Art. No.: A 3777

Application area:

Rhenoplast Window Active Plus is a care lotion especially suitable for weather-exposed window profiles coated with Rhenoplast KP1[®]. The care lotion restores the original shine of the coated, weather-exposed surface. For professional use.

Procedure:

Wipe the weather exposed coated surface, which should be free from grease and dirt, with a cellulose cloth saturated with Rhenoplast CleanEx; leave on for about 2 minutes in order to let it completely vaporize and apply Rhenoplast Window Active Plus with a sponge in circular motions. After initial drying polish with a soft cloth.

Protective effect: 3 months.

Storage:

Cool and frost-free, storable for 12 months

Processing:

Undiluted, shake well before use.

Processing temperature:

20°C recommended

Supply units:

250 ml bottle

VOC 2010: Cat. F / Base Wb / max value 130g/L / IST < 130 g/l

Labeling:

No labeling required

Safety advice:

During processing, common protection measures and regulations according to the authorized trade association must be observed. Safety-relevant data and instructions regarding disposal can be found in the safety data sheet.
